

K-Love radio is a daily part of my life. One of the only stations that is commercial free and filled with positive, encouraging , information and music that is spiritually fullfilling. Our children deserve a place to be filled with music that has a message of love. It would be a bad decision to discontinue this option. People listen by choice and deserve to have that option continue. please do not take K-Love off the air. I will continue to be a supporter. Thank you for your consideration and time. please take these comments seriously.

God bless
Brenda Jenkins
